“Where Research Meets Returns”

“Research for Every Investor. Wealth for Every Indian.”

VISION

Every Indian, regardless of where they start, deserves a real shot at building wealth. AlyoRA exists to close that gap — carrying honest, research-backed financial guidance beyond the metros and into the towns and villages the market usually forgets, so that financial freedom stops being a privilege and becomes a possibility for anyone willing to reach for it. One informed investor at a time, we're investing in a financially stronger Bharat.

MISSION

To become one of India's most trusted names in financial services — not by chasing scale first, but by earning it: through research that holds up, advice that's honest, and pricing that never locks out the investor who needs it most. Wealth creation, done right, for everyone we serve.

ABOUT ALYORA CAPITAL RESEARCH

AlyoRA Capital Research was born from a simple frustration: quality financial advice in India is often reserved for those who already have money — while the people who need it most are left to figure markets out alone. We're building AlyoRA to change that. Backed by formal SEBI-recognised training (NISM certifications across Research Analysis, Investment Advisory, Mutual Fund, and Securities Operations) some are completed & some soon-to-be-completed SEBI registration, AlyoRA will bring together equity research, investment advisory, mutual fund guidance, financial planning, and a sub-broker partnership programme — all under one roof, built on the same principle: research first, returns follow.

The name says it all — Research (Alyo) driving real Returns (RA). Where research meets returns, wealth follows.

Our Services

We offer a complete range of financial services designed to help you grow, protect, and manage your wealth with clarity and confidence. Explore what each service includes below.

Why AlyoRA

Research you can trust. Advice you can act on.

At AlyoRA, trust isn't a tagline — it's built into how we work. Here's what sets us apart.

01. Independent Research

No broker bias. Our analysis is purely data-driven and in your best interest.

We are not tied to any single brokerage house or fund house, which means our recommendations are never influenced by commissions, sales targets, or internal pressure to push a particular product. Every report, stock idea, and portfolio suggestion we share is built on independent, in-house research — grounded in financials, market data, and fundamentals, not sales incentives.

- Research team operates independently from any broking or distribution arm
- No pressure to recommend in-house products or preferred partners
- Every call is backed by data, not assumptions
- Full disclosure of methodology behind every recommendation

You get advice built around your money, not someone else's target.

02. Transparent Pricing

Clear subscription plans. No hidden fees. No conflict of interest.

We believe you should always know exactly what you're paying for and why. Our pricing is laid out upfront — no fine print, no surprise deductions, and no commission-linked recommendations that quietly work against your interests.

- Straightforward subscription plans with clearly listed inclusions
- No hidden charges, entry fees, or exit penalties
- No commission-based incentives that could bias our advice
- Cancel or upgrade your plan anytime, with full clarity on terms

What you see on our pricing page is exactly what you pay — nothing more.

03. Timely Insights

Market reports delivered before market hours. Be prepared, not reactive.

Markets move fast, and having information after the fact isn't good enough. Our research and reports are delivered before markets open, giving you time to review, plan, and act — instead of scrambling to catch up once trading has already begun.

- Daily pre-market reports delivered before trading hours

- Real-time alerts on major market-moving events
- Quarterly earnings and result-impact analysis, delivered promptly
- Clear, actionable takeaways — not just data dumps

Stay a step ahead of the market, every single trading day.

04. For Every Investor

Whether you are a first-time investor or a seasoned HNI, we have the right service for you.

Investing isn't one-size-fits-all, and neither is our approach. We work with clients across every stage of their financial journey — from someone making their first SIP to high-net-worth individuals managing complex, multi-asset portfolios.

- Beginner-friendly guidance for first-time investors, explained in plain language
- Advanced strategies and portfolio structuring for experienced and HNI investors
- Flexible service tiers that scale with your portfolio size and goals
- Dedicated support regardless of your investment ticket size

No matter where you are in your investing journey, there's a service designed for you.
